**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

It is your duty to continue supporting smaller ISPs like Sonic who are in competition with the already established corporations. The competition from these small ISPs are incentivizing everyone to increase their internet speeds. This is in comparison to the larger providers like Time Warner, AT&T, and Spectrum who primarily rely on locked-in customers with limited infrastructure improvements to maximize profits. Regulatory capture further enables these large companies to raise prices while limiting speed increases. If you talk about choice in internet service, this is the only way to fill that promise.
